SUMMARY

Versatile Computer Science student with a strong base in **software development, networking, and system design**. Proficient in **Java, Python, C, and C++**, with experience in **full-stack development and cloud technologies**. Particularly **keen on cybersecurity**, with a passion for **threat detection, network defense, and ethical hacking**. **Quick learner** with a **problem-solving mindset**, focused on building **secure and scalable solutions**.

TECHNICAL SKILLS

Cyber Security	Java	Accessibility
Front-End	Python	SQL
Back-End	Data Structures	Git-Hub

PROFESSIONAL EXPERIENCE

PIE INFOCOMM LTD **Oct 2023 - Jan 2024**

- Conducted real-time monitoring of security incidents using SIEM tools (Splunk, IBM QRadar, ArcSight).
- Performed threat intelligence analysis to identify vulnerabilities and potential cyber threats.
- Developed and implemented incident response plans (IRP) to contain and mitigate cyber threats.

Foxmula - The Smart Way | Internship **Mar 2022 - Aug 2022**

- Assisted in software management and contributed to the globalization of software solutions.
- Gained hands-on experience in sales, enhancing business outreach strategies.
- Conducted research and analysis to optimize software adoption within the organization.

EDUCATION

Chandigarh University **Aug 2024 - Present**

B.E C.S.E – Chandigarh University

- Getting to learn about new technologies
- Programming: C, C++, Python, Java
- Database Management: SQL, MongoDB, PostgreSQL

Diploma In C.S.E **May 2021 - May 2024**

Lovely Professional University

- Relevant coursework in Structural Design and Project Management
- Software Development: Full-stack development (React, Node.js, Django)

ADDITIONAL INFORMATION

- **Languages:** English,Hindi,Marathi.
- **Certifications:** CyberSecurity (Infosys), Cloud Computing(infosys),Blockchain(infosys),Java(udemy)
- **Awards/Activities:** Zinovatio 7th rank (C.U), Tata Imagination Challenge semi-finalist,ESummit(iitr),
- **Projects:** SecureHer (Women safety App), Restaurant Booking System, Sentiment Dashboard
- **GitHub:** <https://github.com/jasss03>
